SINGLE TIME IS SACRED TIME

Your single days matter. If you're rushing to be in a relationship, you might be surprised to learn that a relationship won't solve your problems and that it even might make things worse. If you're unhappy with you who are, a mate can't fix that. Marriage is not the promised land. Both marriage and singleness have good and bad. Use your single time to work on you. Nurture yourself. Get therapy. Find out what makes you happy and get busy doing it. Clean up your life. The happier you are now, the faster love will find you. Love attracts love.

DON'T TRY TO MANIFEST WHEN YOU'RE ANGRY

If you try to manifest your mate and you're angry, you're going to manifest a hot mess. Make sure that you've made peace with your past. Try to let go of what I call "Bitter Boyfriend Syndrome." Heal first.

A RED FLAG WILL NEVER TURN GREEN

When you start your love journey, you're going to attract the person you think is "the one." Hold your horses. If you see a red flag, believe what you see and trust what you feel. Don't get emotional about it. Learn to walk away. Get the lesson and keep it moving.

GUARD YOUR MOUTH

When you're ready to manifest your man, know that it's not the time to talk poorly about men. If your girlfriends are engaged in male bashing, have no part of it. You cannot manifest if you don't mind your mouth. No more complaining. No more murmuring about who messed up. Who cares? Speak life. Call forth the things that you want. If you start speaking poorly about someone (especially a male), do not put a period on the end of your sentence. Insert a comma and then say, "but..." Find the good. Your energy and your words have to match what you want.

TALK TO THE EXPERTS

Talk to couples who have been married for a long time. Ask them what makes their love work. Ask them how they resolve conflict. Ask them lots of questions about love and their relationship. You will leave that conversation with a heart full of wisdom - guaranteed.

Next Steps

Here are your action steps: Remember to see your single time as sacred time, never manifest when your angry, and know that a red flag will never turn green. Most importantly, guard your mouth and always talk to the experts. I suggest using these steps daily. This way, you can supercharge your love life. And if you're truly committed to attracting your very own amazing man, here my programs that can benefit you. By helping you identify what's in your way and empowering you with the skillset you need, you'll be well on your way to the love you deserve.
